CLARK H. GREEN, Editor.

Single copies of THE TIMES, put up in wrappers, can be had at the office at five cents a copy.

Yearly advertisers are restricted to their regular rates. Other advertisements will be charged at regular rates.

No charge for inserting deaths, but fifty cents per square will be charged for obituary notices to be paid in advance.

The charge for marriage notices is left to the bridegroom, and will be acknowledged in the paper.

Where editorial notice of advertisements is required, it will be given and charged for.

GLASGOW, MO.

Look for the X.

A cross (the X) immediately before the name, signifies that the time paid for has expired.

## Funeral Sermon.

Elder W. C. Boon will preach the funeral of Mrs. NANCY BYNUM, at the Christian Church, in Fayette, on Sunday, the 23rd, at 11 o'clock.

Revival.—An interesting meeting of two weeks duration, closed in Huntsville last week. During the meeting some thirty-five additions were made to the Church. Elders ALLEN, RICHMOND, COX and LAND, conducted the exercises.

The burning of McGee College will not stop the school, the adjacent buildings being sufficient to accommodate all the classes until the main building is reconstructed. The fire is supposed to have been the work of an incendiary.—Loss about \$6,000.

## New Furniture Store.

Messrs. FEELAND and PEARSON have taken the Store room in Union Block, on First Street, formerly occupied by Mr. Chamberlain, where they are now receiving a splendid assortment of Furniture, from the finest to the cheapest. They design keeping a full stock, and will sell on reasonable terms. Give them a call.

DENTAL.—Our resident Dentist, Dr. LEVETT, has returned from Cambridge, and is ready to serve and relieve all who are suffering with toothache or a diseased condition of the teeth. The Doctor, when it is desired, administers Ether, by the extraction of teeth, with perfect safety, thereby saving the patient bodily suffering and mental anxiety. Office on First Street, opposite Mr. Shackelford's residence.

## Kansas Constitution.

It is now quite evident that the "Waydott Constitution" has been adopted by the people of Kansas, by a very decided majority. The Constitution will be presented to Congress early in the session, with an application for admission into the Union. We trust she will be promptly admitted, and left to take care of herself, as there is no prospect for quiet, so long as the territorial order of things is kept up.

## We are in receipt of a letter from Mr. JOHN P. SKELTON, formerly of this place, but now of Sacramento City, California, giving an account of the murder of the Messrs. Shepherd, on the plains, and some political items about the recent California election. The news of his letter has been published, and hence we do not give the letter here; nevertheless, it was received and read with pleasure. He mentions the names of several Howard boys, who are all well.

## Sleep—Serenade.

We are sound asleep at our house—don't like long sermons, or late sitting company of evenings—can't bear disturbance after we have retired to rest, yet none of us lost our temper upon being awakened two different nights the past week, by the sound of instruments and voices, beautifully blended.

## The hidden soul of harmony.

We don't say "come no more," not even to "hard times"—in song.

## NEW SENATORS IN THE NEXT CONGRESS.

The following named gentlemen will take their seats for the first time in the United States Senate on the first day in December next, on which day the first session of the thirty-sixth Congress will convene.

Hon. Willard Saulsbury, of Delaware.

Hon. James W. Grimes, of Iowa.

Hon. Lazarus W. Powell, of Kentucky.

Hon. Kingsley S. Bingham, of Michigan.

Hon. John C. Ten Eyck, of New Jersey.

Hon. Thomas B. Reed, of North Carolina.

Hon. Henry B. Anthony, of R. Island.

Hon. A. O. P. Nicholson, of Tennessee.

Hon. J. W. Hemphill, of Texas.

## News of Sir John Franklin.

Late advices from Europe announce the return of the Arctic Expedition, with interesting records and tales of the Franklin expedition, from which it appears that Franklin died in 1847, and the ship was abandoned in 1848.

## The Arctic Expedition found at Point William.

A record dated April 25, 1848, signed by Capt. Crainer and Fitz James, saying the Erebus and Terror were abandoned three days previously in ice, and that 103 survivors were proceeding to Great Fish River; Sir John Franklin had died June 11th of the previous year, and that the total death toll was nine officers and fifteen men.

## Many interesting relics were found on the western shore of King William's Island.

Others were obtained from Esquimaux, who stated that after the abandonment of the ships one was crushed by ice and the other forced ashore. Several skeletons of men, quantities of clothing and a duplicate record up to the abandonment of the ship were discovered.

## The American Watch.

Heretofore an English Watch was thought to combine all the essentials in a time piece, and no man considered that he had time that would do to bet on, without he carried an English piece.—American genius and American mechanics have turned the current, and now those who want a reliable time piece, purchase the American Watch, manufactured at Waltham, Massachusetts.—This manufactory has been in operation long enough to establish a reputation. Scientific men, and scientific Associations give the American Watch the highest position in time keepers. They are manufactured in gold and silver cases, single or double; the movements being of uniform size, can be transferred from one case to another, at pleasure; if any portion of the movement gets broken or lost, an exact duplicate can be ordered from the factory, at a very trifling cost. The cases are warranted to be of sterling metal, and any one who desires a good time piece, should get an American Watch.

## Mr. Chamberlain, who has just returned from the East, with a new and beautiful assortment of Watches, Jewelry, etc., has a supply of these excellent Watches, in any style or case.

## Missouri Made Watch.

Our fellow-townsmen, Mr. F. Mendenhall, received a Diploma from the Central Agricultural and Mechanical Society, held at Booneville, last week, for the "best Missouri made Gold Watch." The watch is a beautiful specimen of mechanism, and a perfect time keeper. It is a patent lever movement, in an enameled hugging case, tastefully carved, and gives evidence of the highest mechanical skill, and was the subject of much attention and criticism at the Fair. We congratulate Mr. Mendenhall on his triumph, and our community in having so finished a workman located among them. The Watch can be seen at Mr. M's shop, in which case and every portion of it was wrought by his own hands, and those who think no good thing can come out of Glasgow, are invited to call and examine it. A Diploma is the highest order of premiums offered by our Fairs for such work as this, we would suggest the propriety of offering a "money premium" sufficient in some degree to pay for time and labor, but more especially to invite competition, and stimulate artisans and mechanics to offer for competition more of their work. Liberal premiums for this purpose, it strikes us, would have a tendency to bring about the objects for which our Fairs were originally established.

## APING ROYALTY.—The newspaper press of our country is becoming decidedly todayish, in regard to our great, and would-be great, men. If they ride out, the press announces the important fact. If they have a pain under the waist-band, or a running at the nose, superinduced by cold, the press and telegraph wires are brought into requisition to announce the fact, repeat the symptoms, the condition of the patient, up to convalescence. This is contemptible todayism, and is aping the court journals, whose Editors live on royal favors and patronage.

## The latest case on record, is an announcement that the Hon. Mrs. Stephen A. Douglas has been indisposed—that she has given birth to a daughter, and as well as might be expected! True, this is an important event to Mr. Douglas and his wife, and they doubtless have friends who will be pleased to learn the important facts—but we have to look upon the publication of the affair with pain and regret. Some follower of the "little giant" has made himself officious, and placed himself in a position to merit the contempt of right-minded men and men.

## Public men ought to be exempt from such notoriety—and all men who take public positions from proper motives, desire to be. None but your third-rate politicians and demagogues seek an announcement of their whereabouts and physical condition at the hands of the press, and it is to be lamented that there is too many connected with the press who are puffed up when one of this class calls on them, and forthwith proceed to lay before the public a fulsome notice of the "condition" of the man, as though they were speaking of a stallion!

## New Advertisements.

J. B. FORBES advertises his new stock, but is entirely too modest to do himself justice. The buyer would do well to call and examine for himself.

Two SALES are advertised, and bargains can be had at both.

Those who owe the late firm of MAJOR & TALLY are desired to settle up.

MAJOR & TALLY, at Roanoke, have a lot of very excellent Furniture, which they are determined to sell at such prices as will command purchasers.

Mr. CARSON is determined to sell that excellent farm of his, and now is the time to get a bargain.

CROPP & WILLIAMS, in addition to their excellent stock of Fresh Drugs, have a thousand and one articles of use and luxury, chiefly for the benefit of the Ladies—but all sorts and conditions of people will find something to please their fancy, by looking through their stock.

THE TEACHERS of the county should feel an especial interest in the formation of the proposed "Institute"—and all who feel any interest in the great subject of Education, will find it pleasant and profitable to attend the meeting.

A. A. PUGH makes a last call. Generally speaking, Pugh is a great talker, and don't mean anything—but he is earnest now.

BARTHOLOMEW & ROBBINS' promised advertisements will be found in the paper—and their goods will be found in the store, all right.

## The Utah Mail at Atchison.

More Hostilities by Indians—Laws and Missouri Emigrant Parties attacked by Shawshone—Several Whites killed and Wounded—Reported Discovery of Silver Mines—Murder at Provo—Lard Groverner in Utah.

Atchison, Kansas, Oct. 7.

The mail from Salt Lake arrived at this place this morning, bringing dates to the 16th of September.

The intelligence it brings is of varied and important character, including reports of murders of emigrants by Indians.

A party of emigrants from Louisa county, Iowa, and Linn county, Mo., were attacked near Wash Valley by a party of sixty Shawshone Indians.

A. L. Rott was killed; J. W. Pauline, Wesley Foreman and Thomas Hunt wounded.

The Indians took all their cattle and burnt the wagons.

Another party of emigrants from Burlington, Iowa, were attacked in the same vicinity. One killed and one wounded.

It is rumored that silver mines have been discovered in Northern Utah.

Archly Williams was shot, at Provo, on the 4th instant.

Arnold, the man wounded when Brown was killed, is dead.

Dr. Forney, Superintendent of Indian Affairs, has returned from his visit to different tribes. He is much pleased with their crops.

Lard Groverner, of England, arrived on the 6th instant, as route for California and China.

Col. Chapman, of the 9th infantry, and his command have arrived and relieved Col. Ruggles who left for Fort Leavenworth on the 8th ult.

Brown county gave a majority of two hundred for the Constitution.

## Important from the Santa Fe Route

The Mail Party Attacked—Two Persons Killed by Kiowas—A Third escapes to Independence—Fears Exaggerated for another Mail—Mr. Hon. Mr. Otero, Judge Wells and others, probably passengers.

[Special Dispatch to the Republican.]

INDEPENDENCE, Oct. 6.

Intelligence of importance regarding an attack by Indians on the mail, between Santa Fe and this place, has just been received here.

The coach which left Independence on the 19th of last month for Santa Fe, was attacked by Indians on the 24th at a locality near Pawnee Fork, the attacking party being of the Kiowa tribes, who have for sometime been hostile.

The conductor of the mail and his brother, also of the mail service, were killed on the spot, and Mr. Greenhaw, contractor of the late Kansas City and Stockton route, are most probably of the mail party.

The mail cannot be continued until a military escort is furnished.

You may rely fully on the truth of the above.

## Senator Broderick and Judge Terry Fight a Duel—Broderick Falls.

David C. Broderick, United States Senator for the State of California, and David S. Terry, Judge of the Supreme Court of that State, fought a duel on the morning of the 13th September, not far from San Francisco. Broderick fell at the first fire. The papers are filled with the particulars. We make an extract:

"Are you ready?"

"Ready," responded Judge Terry, and "Ready" was uttered by Mr. Broderick immediately after.

"One!—One!" pronounced in moderately quick time.

Mr. Broderick raised his pistol (both weapons were set with hair triggers) and had scarcely brought it to an angle of forty-five degrees from its downward position and in a few seconds towards his opponent, when, owing to the delicacy of the hair trigger, it was discharged, the ball entering the ground about four paces in advance of him. Judge Terry fired a few instants later, taking deliberate aim. There was a perceptible interval in the two reports. At that instant Mr. Broderick was observed to clap his left hand to the right side of his breast, when it was seen that he was wounded. He recoiled slowly to the left, and before his seconds could reach him he fell (not heavily) to the ground, when his right leg doubled under him, and still grasping his weapon. Judge Terry upon discharging his pistol, immediately liberated his arm, holding the pistol still smoking in his hand, but moved not from his position. The seconds of Mr. Broderick immediately ran to his aid, and Dr. Locher commenced to staunch the wound on his chest. The bullet had entered just forward of the right nipple and had lodged, as it was supposed, under the left arm.

Broderick died the next day. Terry fled, but was taken and in custody at last accounts.

The difficulty grew out of politics. Terry was the challenger.

It is greatly to be regretted that two men, occupying such distinguished positions, should have felt it incumbent upon them to settle a political difficulty by a resort to arms. The effect of such a course can but have an evil tendency at home, while in a national point of view, we suffer abroad.

The papers of California, and indeed of the country, are already discussing the duel, in all its bearings. If the above extract be a true account, Judge Terry certainly gains but little credit, viewed even under the dueling code while all do not acknowledge that code, will regard him as a cold blooded murderer.

## L. J. Wagner has been elected to the Legislature from Scotland county, in place of J. P. Knott, appointed Attorney General, in place of E. Ewing, elected to the Supreme Bench. Speaking of this election, the Alexandria Delta sensibly remarks:

"This is the last of a series of elections which were the result of the resignation of Hon. John C. Richardson of his seat upon the Supreme Bench. First Attorney General Ewing resigned to get the vacant seat on the Bench, and then Mr. Knott resigned to get the Attorney General's place, and what position Mr. Wagner has resigned in order to get Mr. Knott's place we cannot say, but think it probable that he has resigned some county office. When a man asks the people for an office and they give it to him, it is nothing more than fair to presume a promise on his part to serve the full term for which he is elected. It is in bad taste and shows too much greediness for the office holder to put aside a half finished duty and accept a different office for the simple reason that it has more emolument; besides it is expensive and troublesome to the State.

## The Opposition.

The democratic papers speak very lightly of the opposition, but they don't mean it. The opposition are united in opposition to the democracy, and are about as near united in principle, as the democracy. In the last gubernatorial race, the vote stood as follows:

Stewart, (democrat), 47,975

Rollins, (opposition), 37,641

Nearly a hundred thousand votes were cast, and Maj. Rollins was defeated by less than five hundred.

The opposition are not insignificant in numbers or talent, and with a good ticket in the field, organization and work, will route the bogus democracy next August.

It can be done, and let every opponent of National Democracy pledge himself to the work, and it will be done!

## Western Bank.

In another column will be found the quarterly statement of the Western Bank, and the Branch, at this place. The Bank is in a sound condition, and has been of great service to the community at large, and made a handsome profit for the stockholders.

First.—There was a slight frost last Saturday night.

Second.—The river is low, but boats are still making fair time.

## Captures of Filibusters.

We are informed, reliably, that about one hundred and fifty of the expeditionists for Chiriqui or elsewhere, are detained at the S. W. Pass, on board a tow boat, under the guns of the U. S. revenue Cutter, and are expected up this day.

The other wing of the expedition, which left via Berwick's Bay, got off safely on Saturday last. The captured men were without provisions.

It appears the force broke up camp early on last Saturday morning, one detachment of about one hundred men starting as we have above stated, via Berwick's Bay, and the other, the captured, down river, bringing up near the "Powder House."

The planter and residents of the neighborhood, not being up to snuff, sent word to the Collector, F. H. Hatch, who chartered the propeller, "Enoch Train" to start in pursuit. Meantime a towboat had moved from the river, and their evil end to sea via Pacific Ocean, but their evil end good result compelled them to return to the S. W. Pass through stress of weather, where they fell into the hands of the federal Philistines as we have thus hastily shown.—[N. O. True Delta, 8th.
